## ALERT J5 With Printer

CKO-ALCO-ALERT

### PRODUCT OVERVIEW

The ALERT J5 With Printer is the perfect companion for police roadside breath testing and industrial safety. This handheld breath alcohol tester marries evidential accuracy with sensible storage capabilities to combat drink-driving and ensure the safety of your fleet.

Ensure accurate test results with electrochemical sensor technology, standard for law-enforcement breath alcohol testers. Passive samples can also be taken without user participation. Simply point, click, and analyse the air for the presence of alcohol.

The ALERT J5 can be paired with a Bluetooth printer to print results on the spot.

### SPECIFICATIONS

<b>Sensor</b>	Electrochemical
<b>Specificity</b>	Alcohol only; no response to ketones or hydrocarbons
<b>Range of Measurement</b>	0.00 to 3.00 mg/L
<b>Unit of Measure</b>	mg/dL, g/dL, g/L in blood mg/L, µg/dL, µg/L in breath
<b>Time to Ready</b>	<10 seconds
<b>Analysis Time</b>	<10 seconds
<b>Recycle Time</b>	<10 seconds
<b>Accuracy</b>	± 5% at 0.500 mg/L
<b>Display</b>	Graphical LCD
<b>Memory</b>	10,000 time-stamped events
<b>Printer</b>	Bluetooth connection
<b>Operating Temperature</b>	-20 to +65°C
<b>Battery</b>	2 AA alkaline
<b>Calibration</b>	ALCOSIM™ breath alcohol simulator or equivalent
<b>Dimensions</b>	130 mm x 59 mm x 32 mm
<b>Weight</b>	110 grams
<b>Certification</b>	NHTSA DOT
