2K Connected 4G Dash Camera

2-Channel Video Streaming and Playback

- Forward facing camera 2K (1440P) and optional driver facing internal camera 1080P HD video.

- Equipped with continuous loop recording functionality, ensuring efficient and reliable video storage.

GNSS Positioning and Trajectory Playback

- Support GPS, BDS, GLONASS and Galileo for continuous connectivity and real-time positioning, enabling accurate tracking of vehicle routes as well as detailed playback capabilities.

Data Integrity and Security

- When the dash camera is offline, it temporarily stores location data and transmits it to the server once a stable connection is re-established.

- When the orientation exceeds a specified threshold, it will immediately send positional data to optimise the trajectory.

- Supports 1 TF card, 32G~512GB.

Easy Installation and Management

- Pre-configured device prior to delivery, the processes of parameter configuration and installation are substantially streamlined.

Market-Leading Functionality with CKO LiveView

- Connected to CKO LiveView for secure multi-network real-time video-stream and GPS tracking for your single or multiple vehicle fleet.
